

# SOLUTIONS FOR INTERIOR FINISHING TRADES

**Hilti Tools, Fastening &  
Firestop Systems**

# WE HELP YOU INCREASE YOUR PRODUCTIVITY

Transparency brings efficiency

Hilti Asset Management

Missing equipment, expired certifications and broken tools can cost your business time and money. Good asset management is crucial for staying on top of these challenges and helps increase your overall profitability.

Your company's future competitiveness depends on the productivity gains you can achieve today.

## IT ALL STARTS WITH A HALF DAY ONSITE ANALYSIS

We observe operations within your sites, offices and warehouses to map your current processes

We identify and validate inefficiencies in management of your assets on an employee and administration level

We document and quantify the impact of your current business challenges and the goals you want to achieve

To request a consultation, email [auontrack@hilti.com](mailto:auontrack@hilti.com), visit [www.hilti.com.au/ontrack](http://www.hilti.com.au/ontrack) or scan the code.

Our specialist consultants are professionally trained in productivity improvement and process optimisation. Their mission throughout the onsite analysis is to analyse your current processes in managing your assets, certifications, repair and maintenance schedules, and to identify areas of improvement to help optimise your business.

The end result is to deliver a concrete plan of how we can help you tackle your inefficiencies.

## THE BENEFITS OF AN ONSITE ANALYSIS

An overview of opportunities to improve your productivity both onsite and in the office

Employee feedback of your current situation

A detailed business case and tailored solution aligned with your company's needs, including a cost-benefit analysis of the proposed solution

Watch the video to see how an onsite analysis can help your business.

# THE CLEVER ALTERNATIVE

We manage your tools so you can manage your business

Hilti Fleet Management

## The cost of tools goes way beyond purchase price

With Hilti Fleet Management there is no upfront investment to tool-up for a job. Instead, you pay a fixed monthly charge that covers all tool, service and repair costs. This greatly simplifies your financial planning and takes a load of administrative work off your shoulders.

### CONTROL YOUR COSTS

#### All inclusive repairs

- No repair costs - ever
- Unlimited battery replacements
- Pistons and buffers included in direct fastening tools\*
- Free laser calibration

#### Fixed monthly cost

- A low monthly usage fee replaces a large upfront cash investment to tool up
- Predictable costs, every month

#### Theft coverage

- 80% of losses covered in the event of a theft
- Simply report the tool stolen with a police report. We'll take care of the rest

#### Accidental damage

- Cover for accidental damage on site\*
- Return the tools to Hilti and we'll take care of the rest

### KNOW WHAT YOU HAVE

#### Tool inventory and labelling

- Use Fleet Management Online to track and assign your tools to a specific job, team or worker
- A full tool fleet list helps avoid redundant purchases
- Customised labels makes tracking tools easier

### FLEXIBLE EXCHANGE

#### Contract extension

- Return your tools at a date convenient to you upon contract expiry
- Contract extension ends when tools are returned to Hilti

#### Exchange cycle

- Flexible tool exchange cycle options: monthly, quarterly (default), semi-annually or annually

### CUT ADMINISTRATION

#### Streamlined processes

- No more repair quotes – high quality tool repairs returned fast
- Quick and easy order process to add tools to your fleet
- 1 monthly invoice

### NO MORE DOWNTIME

#### Loan tools\*

- In the event of a tool repair we can arrange a loan tool from a designated Kennards Hire branch. Call us on 131 292 and we'll do the rest.

#### Tool upgrades

- Use our tools to get the job done, then trade up to the latest technology at the end of the term using Hilti Online or Hilti Connect
- Minimise downtime with a constant fleet of high performing tools

\*Some limitations apply. Contact Hilti for details.

Call us on 131 292 for a free consultation to help you optimise your tool fleet and save your business money.

Watch the video to see why professional tradies choose Fleet Management.

# CONNECT WITH YOUR TOOLS

Hassle-free tool services at your fingertips

Hilti Connect

## Hilti Connect is the perfect app to manage your tools

Hilti Connect is a new phone app that allows you to identify your tool with NFC technology, find detailed tool information such as warranty and fleet expiration dates, and see how many times a tool has been repaired. The app also allows you to submit your tools for repair right from your smartphone.

### HOW DO I KNOW IF MY TOOL IS NFC ENABLED?

Any Hilti tool that is NFC enabled will have a "Connected" symbol on the rating plate of the tool. Place your phone in that location and it will read the NFC tag and take you to the Hilti Connect App.

### HOW DOES HILTI CONNECT WORK?

There are three things that make up the whole Hilti Connect experience. The app, the NFC tag, and the Hilti Cloud. Once logged into the app with your Hilti Online login credentials, you can search for the tool you want by serial number or by scanning the NFC tag. After scanning a tool, the app links to the Hilti Cloud and pulls in all the data and documents for that tool.

### HOW CAN IT HELP WITH MY FLEET TOOLS?

Hilti Connect gives you access to Fleet information such as purchase date and expiry date and allows you to book tool repairs and request loan tools at the same time (should you need one). In addition, you can access operator manuals, how-to videos, related products and approval documents – all from the convenience of your smartphone.

Hilti Connect can be downloaded for free from the Google Play store, or the App Store right to your smartphone.

Scan the code to find out more about the benefits that Hilti Connect can provide you and your business.

# QUICK, EXPERT REPAIRS

Clear warranties and repair costs

Hilti Tool Service

We repair and clean your Hilti tools quickly and expertly. We don't just change a faulty part, we carry out a full diagnostic check on all moving parts and return your tool to its original performance.

## HOW MUCH WILL MY TOOL REPAIR COST?

### 20 year manufacturer's warranty

- We will repair your tool free of charge if it breaks down as a result of materials or manufacturing defects for 20 years.
- A charged repair will never cost you more than 30% of the price of a brand new replacement tool. If the actual cost of labour and parts is less, that is all you'll pay.

### Up to 2 years wear and tear coverage

- We will repair your tool completely free of charge for up to 2 years from the date of purchase. This includes damage resulting from normal wear and tear. You won't pay for parts, labour or even pick-up and delivery.
- After the wear and tear period, the cost of paid repairs are capped for the remaining warranty period.

## HOW LONG WILL MY TOOL REPAIR TAKE?

### Let's get started right away - repair cost pre-approvals

- By pre-approving charged repair costs up to the 30% repair cost limit, you eliminate the quotation process – meaning we won't delay repair work and less downtime for you.
- We'll collect, repair and return your tool to site, faster than any other tool repair service. We even guarantee 5 days turnaround in Sydney, Brisbane, Melbourne and Gold Coast metro areas. If we fail, your repair is free!\*

\*Conditions apply. See website for details.

Scan the code to register for super fast repairs.

Book your repairs via the Hilti Connect app, [www.hilti.com.au](http://www.hilti.com.au) or 131 292.

Get the Hilti Connect app for iOS or Android.

# PRODUCTIVITY PLUS

Complete systems for interior finishing trades

Hilti Systems

## INTERIOR FINISHING SYSTEMS

The innovative tools and accessories we supply to the construction industry are as varied as the applications in this field.

We offer a range of products for measuring, drilling, diamond coring, chiselling, cutting, grinding and fastening as well as special solutions for applications such as dustless drilling. Our products form fully matched system components, designed for maximum performance and reliability to help you work faster and stay productive longer.

We understand safety is a priority, that's why our dust removal, vibration reduction and active torque control features were developed to provide highly effective user protection.

## HILTI SYSTEMS – A CASE STUDY

### Faster drywall construction

Measuring system for dry wall installer covers with wide range of applications including distance measuring, levelling and aligning

Battery 22V cordless nailer for interior finishing applications. High-performance collated nail for concrete

Screw magazine for collated screws

Sealing rigid or low-movement ceiling/wall joints in various base materials such as masonry, concrete, drywall and metal, with cordless dispenser

### IMPROVED SAFETY

- Combustion-free operation – no gas cans or powder cartridges to store and dispose of

### IMPROVED PRODUCTIVITY

- Fastening rate of 1.3 nails per second
- One battery fits all
- Controlled sealant wastage

**THE END RESULT:** Improved safety and greater productivity.

# ACCURATE, RELIABLE AND EASY TO USE

Hilti Measuring  
Systems

## PD 5 laser range meter

- Accurately measure distances up to 100m
- Easy to use, single button operation
- Water resistant and dust tight
- Automatic backlight on the display makes the results visible in dark spaces

## PM 2-LG green line laser

- Level suspended ceilings
- Level and align doors and windows
- Green laser beam for best visibility
- Horizontal and vertical line with a large fan angle to cover the whole working area

## PM 40-MG multi-line green laser

- Setting out drywall tracks on floors, walls, ceiling
- Easy and fast aligning – rotating platform with improved fine adjustment
- All the lines you need – 4 vertical and a 360° horizontal lines, bottom plumbing point
- Green beam – 4 times more visible than red

## PR 3-HVSG green rotating laser

- Level suspended ceilings and transfer heights
- Square walls and partitions
- Rotating laser beam can be switched, by remote control, to a stationary laser line that can be shifted in the horizontal or vertical planes
- Rugged shock-absorbent housing provides protection in case the tool is dropped

## PR 30-HVSG green rotating laser

- Suspended ceilings and transfer heights
- Square walls and partitions
- “Catch-me” line function to boost laser visibility
- Paired remote control to avoid interference with other tools on the jobsite
- Auto alignment function – tool aligns the beam at the touch of a button

# THE FREEDOM TO GET THE JOB DONE

Hilti Cordless  
Systems

## SID 4-A22 cordless impact driver

- High-efficiency brushless motor means the tool lasts longer and gets more work done per charge
- Robust 1/4” hexagonal click-in chuck
- Four bright LEDs around the chuck provide direct illumination of the work surface
- Three gears and electronic speed control for easy switching between different driving speeds
- Ergonomic grip and trigger for maximum comfort and convenience during long periods of use

## TE 4-A22 DRS cordless rotary hammer with dust extraction

- Repetitive drilling in all directions in concrete and masonry, recommended diameter range 5-12mm
- Virtually dustless drilling when used with the DRS 4-A dust removal system
- First class performance-to-weight ratio, making it ideal for overhead applications
- High battery capacity – more holes per charge

## AG 125-A22 cordless angle grinder

- Most powerful grinder on the market, can withstand high forces when cutting or grinding
- Perfect balance and low weight
- First class safety features: disc brake, Active Torque Control (ATC), deadman's switch

## SCW 22-A cordless wood saw

- Impressive cutting performance and much lighter than a corded alternative
- Perfect for cutting formwork, plywood, chipboard, plastic, rafters and battens

## CD 4-A22 caulking dispenser

- Versatile tool that can be used interchangeably with either 310 ml cartridges or 600 ml barrels
- Powerful tool for dispensing high-viscosity material with ease

# WORK FASTER AND LONGER

Hilti Tool Inserts  
for interior finishing trades

## Small abrasives

- For cutting, grinding and polishing and finishing work
- Sizes available: 115mm, 125mm, 180mm, 230mm

## Smooth shank bits

- A wide range of smooth and hex shank bits for multiple base materials
- Additional sizes and connection ends are available – see Hilti website for more information

## Hammer drill bits (SDS)

- SDS hammer drill bits designed with a full carbide head and bits
- Unique head and helix design to drill faster than any other drill
- For concrete, brick, masonry and more
- Connection ends available: TE-C, TE-Y

## Chisels and setting tools

- Pointed and flat chisels with self-sharpening tips and inductive hardening
- Designed for superior performance and longer life
- For demolition and channel work
- Connection ends available: TE-C, TE-Y, TE-S, HEX 28

## Large abrasives

- For dry wall studs on chop saws
- Sizes available: 14"

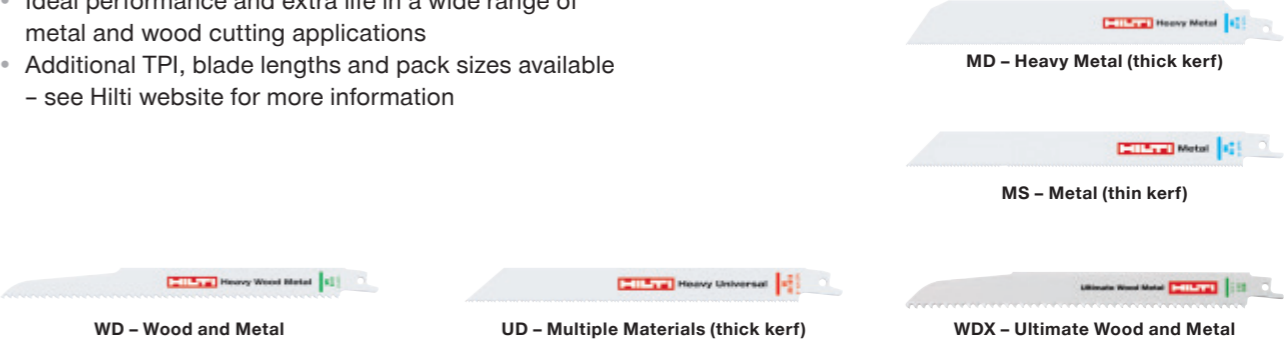

# WORK FASTER AND LONGER

Hilti Tool Inserts  
for interior finishing trades

## Reciprocating saw blades

- Ideal performance and extra life in a wide range of metal and wood cutting applications
- Additional TPI, blade lengths and pack sizes available – see Hilti website for more information

## Circular saw blades

- Fast speed, high precision and extra long life in metal and wood cutting applications
- Sizes available: 165mm, 190mm

## Band saw blades for SB 4-A22

- Fast cutting metal band saw blades for low noise, low residue
- Cold cutting in steel pipe and tubing
- Available TPI: 10/14, 14/18, 24

## Jig saw blades

- High precision and fast speed
- For straight and contour cutting in wood, metal, stainless steel and other materials

# QUICK, PRECISE AND CLEAN

Hilti Diamond  
Systems

## DCH 300 diamond cutter

- Cuts to a depth of up to 12 cm – ideal for windows, doors and shafts openings
- Overheating and overloading protection
- Exact cutting depth adjustment with depth gauge
- HSE tool: blade rotation guides the tool away from the operator's body & dust-free with vacuum cleaner use

## DCH 180-SL slitting machine

- Quick and neat chasing for cable conduits, pipes or hebel walls positioning
- Very high cutting performance, up to 60 mm slitting depth and width
- Depth gauge for accurate cutting depth adjustment
- HSE tool: blade rotation guides the tool away from the operator's body & dust-free with vacuum cleaner use

## DG 150 diamond grinder

- Specialised grinding tool which doubles productivity compared with angle grinders
- Perfect to prepare a concrete surface before painting, remove coatings or concrete drops
- HSE tool: built-in dust hood and dust free with a vacuum cleaner – can be used for 8 hours with a P2 mask

## SPX, SP diamond cup wheels and cutting discs

- 3 quality lines to respond to each need:
- SPX (red): Ultimate performance delivering the lowest total cost through labor savings
- SP (black): Premium solution which delivers solid performances for demanding users
- P (grey): Standard product features with Hilti quality at lowest acquisition cost

## VC 40-UM dry/wet M-class vacuum cleaner

- Remove dust and slurry from drilling, slitting, grinding and wet/dry coring
- 1200W powerful motor
- Hilti Airboost filter technology for consistently high suction performance
- Automatic filter cleaning every 15 seconds
- M-class to comply with Australian construction's legislation

# RELIABLE AND COMPLIANT

Hilti Mechanical  
Anchor Systems

## HTB metal anchor with screw for drywall

- Light-duty anchoring in drywall and heavier-duty applications in concrete block
- Best performance in gypsum board
- Unique installation "legs" and locking cap for easy and adjustable fastening in various thicknesses

## HCA ceiling hanger

- Installing suspended ceilings
- Easy install: hammer in and pull with hammer claw
- Gripping lugs on the sleeve aids expansion during setting

## HPS plastic impact anchor

- Fastening trim strips, battens and components for electrical and plumbing installations
- Universal use on many materials, including perforated brick and block
- Drive in with a hammer or screwdriver. Can be unscrewed

## HLC sleeve anchor

- Suitable for a wide range of temporary applications and fastening small items
- Head configurations available: hex, countersunk, tie wire, closed eye bolt, open eye bolt
- Pre-assembled anchor for fast, easy installation

## HSA expansion anchor

- Fastening columns and beams
- For fast, convenient and reliable torquing set with SIW 14-A or SIW 22-A impact wrench and S-TB torque bar

## HUS3-H 6 screw anchors

- Fast and easy installation
- Completely removable
- Small spacing and edge distance
- Nice head finish

## HST3 expansion anchor

- Productive and reliable installation with AT-Module
- Greater flexibility thanks to two embedment depths included in the ETA
- Approved for seismic applications categories C1 and C2 (ETA)

# EFFICIENT AND PRODUCTIVE

Hilti Direct Fastening and Screw Fastening Systems

## BX 3 02 battery powered fastening tool

- Hilti's combustion-free direct fastening technology for high-quality, reliable fastening on concrete, steel and some types of solid masonry
- Combustion-free operation – no gas cans or powder cartridges to store and dispose of
- Drives up to 800 fasteners with a single charge
- Magazine capacity of 30 nails
- Smart features including a revolutionary refill indicator, standby mode and Bluetooth connectivity through the Hilti Connect app

## GX 3 gas fastening system

- No battery – so no power source needed and no downtime due to charging
- Wide range of nails for fastening to a wide variety of materials
- Gas gauge helps to avoid running out of gas unexpectedly
- High fastening rate for high productivity and maximum efficiency

## GX 2 gas system

- Short (20 mm), comfortable stroke and low recoil reduce fatigue, especially in overhead applications
- GC 52 gas can drives up to 1,100 nails
- Best-in-class battery performance: 8,000 nails with one charge, 30 min. charging time
- 12V Li-ion battery platform shared with other Hilti tools

## DX 5-IE insulation fastening system

- Fastening insulation materials to interior and exterior walls and ceilings
- Fastens insulation thickness 25 mm – 200 mm
- Smart features through Bluetooth connectivity and the Hilti Connect app
- One-step operation - up to 5 times faster than traditional drilling and anchoring method
- X-IE insulation fasteners: wide range of sizes available in black and white

# EFFICIENT AND PRODUCTIVE

Hilti Direct Fastening Systems

## DX 351-CT powder-actuated fastening system for ceilings

- Fastening overhead to concrete or steel
- Fastenings for suspended ceilings
- Safety device helps prevent unintentional firing
- Specially designed for “bump firing” in ceiling fastening applications

## DX 351 MX powder-actuated fastening system

- Fastening to tough concrete and steel
- Safety features helps prevents unintentional firing
- Available in a single shot version to fire nails with washers

## SD 5000-A22 cordless drywall screwdriver

- Fastening drywall to metal or wood framing on walls and ceilings
- Fastening metal track to metal track (framing)
- SMD 57 magazine for speedy repetitive fastening
- High battery capacity / very short charging time
- Optimal speed and power: speed 5000/min, torque 9.5 Nm

## GX-IE gas insulation fastening system

- Fastening insulation materials to interior and exterior walls and ceilings
- Fastens insulation thickness 25 mm – 120 mm
- One-step operation - up to 5 times faster than traditional drilling and anchoring method
- X-IE-G insulation fasteners: wide range of sizes available in white

# CODE COMPLIANT FIRE PROTECTION

Hilti Firestop  
Systems

VISIT [WWW.HILTI.COM.AU](http://WWW.HILTI.COM.AU) OR CALL 131 292 FOR FIRESTOP APPROVAL DOCUMENTATION

## CP 606 flexible firestop sealant

- Water-based acrylic sealant for interior firestopping applications in various base materials including concrete, aerated concrete, prefabricated panels and plasterboard walls
- For sealing low movement construction joints up to 30mm wide in walls and floors, and up to 65mm wide between walls and metal decking
- Paintable

## CD 4-A22 caulking dispenser

- Versatile tool that can be used interchangeably with either 310 ml (10 oz) cartridges or 600 ml (20 oz) barrels
- Powerful tool for dispensing high-viscosity material with ease

# QUICK AND EASY TO USE

Hilti Construction  
Foams

## CF 126 dispenser foam

- High-yield, self-extinguishing foam for sealing joints and gaps
- 750ml can with foam yield up to 55l
- Use with Hilti CF DS-1 dispenser gun for controlled dispensing
- Recommended dispenser: Hilti CF DS-1
- Recommended dispenser cleaner: Hilti CFR 1

## CF-F 750 GV filling foam

- High yield foam for sealing gaps and voids in walls
- 750ml can with foam yield up to 34l
- High adhesive strength
- Easy to use (finger dispensing)
- Restricts drafts and reduces noise and vibration

## CF 116 filling foam

- For sealing gaps and voids in walls
- 473ml can with foam yield up to 24l
- Easy to use (finger dispensing)
- Restricts drafts and reduces noise and vibration

# ANCHOR SOLUTIONS BUILT TO CODE

Hilti Anchor  
Systems

## NCC COMPLIANCE

To ensure you comply with the National Construction Code (NCC), ask for the ETA documentation for the selected anchor.

## STRONGEST ANCHORS

Our anchors provide the strongest solution for safety critical applications in concrete, fully backed by technical documentation, software and engineering services.

## WIDEST RANGE

We offer a full suite of ETA assessed anchoring solutions, to suit every application from basic through to the most complex and challenging.

## SAFE-ET FAST, RELIABLE AND SAFE

- Auto-cleaning with Hilti hollow drill bit
- Dustless
- NCC compliant and ETA approvals for the following products:

Hollow drill bit

HVU2

HST3

HSA

RE 100

RE 500 V3

HY 200

HY 170

- Roughen diamond cored holes for better bonding
- Allows higher loads
- NCC compliant and ETA approved for RE 500 V3 and HY 200-R

Roughening tool

RE 500 V3

HY 200

## THE APPROVED ADAPTIVE TORQUE SYSTEM

Torque bar

HSA

HST3

HST3 setting with SIW-6AT impact wrench

## SCREW ANCHORS HUS3

Reliable and ETA approved for numerous permanent applications.

- Fast
- No torque wrench
- High loads like stud anchors
- Adjustable
- Cuts through rebar

## ETA APPROVED FOR DIAMOND CORED HOLES

# WE'RE HERE TO HELP

## How to get in touch

### Contacting Hilti

#### CUSTOMER SERVICE

Customer Service representatives are available Monday to Friday from 7:30am to 5:00pm. Our professionally trained team can help you with product advice, orders and deliveries, as well as organising on-site product demonstrations.

**Call: 131 292 Fax: 1300 135 042 Email: [serviceaustralia@hilti.com](mailto:serviceaustralia@hilti.com)**

#### HILTI STORES

Our national network of Hilti Stores are much more than display or sales points for Hilti products. At a Hilti Store, you can receive professional advice on products and applications. You can also have hands-on demonstrations of Hilti products. Find a location near you.

**Visit: [www.hilti.com.au/stores](http://www.hilti.com.au/stores)**

#### HILTI ONLINE

7 days a week, 24 hours a day, our website is available at your own convenience during and after office hours, with quick access to product information and pricing. Register to order online, review your order history, see your tool list and more. Get the Hilti Mobile app for Android or iOS.

**Visit: [www.hilti.com.au](http://www.hilti.com.au)**

#### ACCOUNT MANAGERS

Our professionally trained Account Managers are readily available nationwide, to visit your place of work, where and when you need. They can help evaluate your job requirements and suggest ways to increase your productivity and profitability.
