SOLUTIONS FOR MECHANICAL TRADES

Hilti Tools, Fastening & Firestop Systems

WE HELP YOU INCREASE YOUR PRODUCTIVITY

Transparency brings efficiency

Hilti Asset Management

Missing equipment, expired certifications and broken tools can cost your business time and money. Good asset management is crucial for staying on top of these challenges and helps increase your overall profitability.

Your company's future competitiveness depends on the productivity gains you can achieve today.
IT ALL STARTS WITH A HALF DAY ONSITE ANALYSIS

We observe operations within your sites, offices and warehouses to map your current processes

We identify and validate inefficiencies in management of your assets on an employee and administration level

We document and quantify the impact of your current business challenges and the goals you want to achieve

To request a consultation, email auontrack@hilti.com, visit www.hilti.com.au/ontrack or scan the code.

Our specialist consultants are professionally trained in productivity improvement and process optimisation. Their mission throughout the onsite analysis is to analyse your current processes in managing your assets, certifications, repair and maintenance schedules, and to identify areas of improvement to help optimise your business.

The end result is to deliver a concrete plan of how we can help you tackle your inefficiencies.

THE BENEFITS OF AN ONSITE ANALYSIS

An overview of opportunities to improve your productivity both onsite and in the office

Employee feedback of your current situation

A detailed business case and tailored solution aligned with your company's needs, including a cost-benefit analysis of the proposed solution

Watch the video to see how an onsite analysis can help your business.

THE CLEVER ALTERNATIVE

We manage your tools so you can manage your business

Hilti Fleet Management

The cost of tools goes way beyond purchase price

With Hilti Fleet Management there is no upfront investment to tool-up for a job. Instead, you pay a fixed monthly charge that covers all tool, service and repair costs. This greatly simplifies your financial planning and takes a load of administrative work off your shoulders.

HILTI

FLEET MANAGEMENT

CONTROL YOUR COSTS

All inclusive repairs
- No repair costs - ever
- Unlimited battery replacements
- Pistons and buffers included in direct fastening tools*
- Free laser calibration

Fixed monthly cost
- A low monthly usage fee replaces a large upfront cash investment to tool up
- Predictable costs, every month

Theft coverage
- 80% of losses covered in the event of a theft
- Simply report the tool stolen with a police report. We'll take care of the rest

Accidental damage
- Cover for accidental damage on site*
- Return the tools to Hilti and we'll take care of the rest

KNOW WHAT YOU HAVE

Tool inventory and labelling
- Use Fleet Management Online to track and assign your tools to a specific job, team or worker
- A full tool fleet list helps avoid redundant purchases
- Customised labels makes tracking tools easier

FLEXIBLE EXCHANGE

Contract extension
- Return your tools at a date convenient to you upon contract expiry
- Contract extension ends when tools are returned to Hilti

Exchange cycle
- Flexible tool exchange cycle options: monthly, quarterly (default), semi-annually or annually

CUT ADMINISTRATION

Streamlined processes
- No more repair quotes – high quality tool repairs returned fast
- Quick and easy order process to add tools to your fleet
- 1 monthly invoice

NO MORE DOWNTIME

Loan tools*
- In the event of a tool repair we can arrange a loan tool from a designated Kennards Hire branch. Call us on 131 292 and we'll do the rest.

Tool upgrades
- Use our tools to get the job done, then trade up to the latest technology at the end of the term using Hilti Online or Hilti Connect
- Minimise downtime with a constant fleet of high performing tools

*Some limitations apply. Contact Hilti for details.

Call us on 131 292 for a free consultation to help you optimise your tool fleet and save your business money.

Watch the video to see why professional tradies choose Fleet Management.

CONNECT WITH YOUR TOOLS

Hassle-free tool services at your fingertips
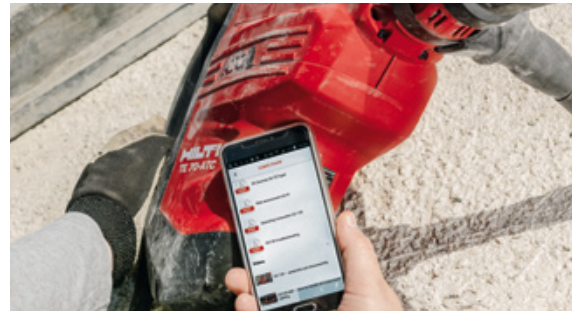

Hilti Connect

Hilti Connect is the perfect app to manage your tools

Hilti Connect is a new phone app that allows you to identify your tool with NFC technology, find detailed tool information such as warranty and fleet expiration dates, and see how many times a tool has been repaired. The app also allows you to submit your tools for repair right from your smartphone.

HOW DO I KNOW IF MY TOOL IS NFC ENABLED?

Any Hilti tool that is NFC enabled will have a "Connected" symbol on the rating plate of the tool. Place your phone in that location and it will read the NFC tag and take you to the Hilti Connect App.

HOW DOES HILTI CONNECT WORK?

There are three things that make up the whole Hilti Connect experience. The app, the NFC tag, and the Hilti Cloud. Once logged into the app with your Hilti Online login credentials, you can search for the tool you want by serial number or by scanning the NFC tag. After scanning a tool, the app links to the Hilti Cloud and pulls in all the data and documents for that tool.

HOW CAN IT HELP WITH MY FLEET TOOLS?

Hilti Connect gives you access to Fleet information such as purchase date and expiry date and allows you to book tool repairs and request loan tools at the same time (should you need one). In addition, you can access operator manuals, how-to videos, related products and approval documents – all from the convenience of your smartphone.

Hilti Connect can be downloaded for free from the Google Play store, or the App Store right to your smartphone.

Download on the **App Store**

GET IT ON **Google Play**

Scan the code to find out more about the benefits that Hilti Connect can provide you and your business.

QUICK, EXPERT REPAIRS

Clear warranties and repair costs

Hilti Tool Service

We repair and clean your Hilti tools quickly and expertly. We don't just change a faulty part, we carry out a full diagnostic check on all moving parts and return your tool to its original performance.

HOW MUCH WILL MY TOOL REPAIR COST?

20 year manufacturer's warranty
- We will repair your tool free of charge if it breaks down as a result of materials or manufacturing defects for 20 years.
- A charged repair will never cost you more than 30% of the price of a brand new replacement tool. If the actual cost of labour and parts is less, that is all you'll pay.

Up to 2 years wear and tear coverage
- We will repair your tool completely free of charge for up to 2 years from the date of purchase. This includes damage resulting from normal wear and tear. You won't pay for parts, labour or even pick-up and delivery.
- After the wear and tear period, the cost of paid repairs are capped for the remaining warranty period.

HOW LONG WILL MY TOOL REPAIR TAKE?

Let's get started right away - repair cost pre-approvals
- By pre-approving charged repair costs up to the 30% repair cost limit, you eliminate the quotation process – meaning we won't delay repair work and less downtime for you.
- We'll collect, repair and return your tool to site, faster than any other tool repair service. We even guarantee 5 days turnaround in Sydney, Brisbane, Melbourne and Gold Coast metro areas. If we fail, your repair is free!*

*Conditions apply. See website for details.

HILTI TOOL SERVICE 20 YEARS MANUFACTURER'S WARRANTY

HILTI TOOL SERVICE 2 YEARS WEAR & TEAR WARRANTY

HILTI TOOL SERVICE 5 DAYS TURNAROUND OR IT'S FREE

PRODUCTIVITY PLUS

Complete systems for mechanical trades

Hilti Systems

MECHANICAL SYSTEMS

The innovative tools and accessories we supply to the construction industry are as varied as the applications in this field.

We offer a range of products for measuring, drilling, diamond coring, chiselling, cutting, grinding and fastening as well as special solutions for applications such as dustless overhead drilling and clean penetration diamond coring. Our products form fully matched system components, designed for maximum performance and reliability to help you work faster and stay productive longer.

We understand safety is a priority, that's why our dust removal, vibration reduction and active torque control features were developed to provide highly effective user protection.

HILTI SYSTEMS – A CASE STUDY

Cleaner diamond coring for plumbing pipe penetration

Firestop solutions for a wide range of pipe types and diameters and with a wide range of approvals

+

Diamond core bits, rings and change modules, designed for ultimate drilling performance for coring in concrete and masonry

+

DD-250 heavy-duty diamond drilling system for rig-based coring in a very wide diameter range of 12-450 mm (1/2" - 18")

+

DD-WMS 100 single unit for the supply of cooling water as well as the collection and filtration of wastewater from diamond drilling systems

IMPROVED SAFETY	• The worker is not exposed to concrete slurry
IMPROVED PRODUCTIVITY	• Heavy-duty drive unit with four-speed gearing and convenient controls
	• No additional cleaning work

THE END RESULT: Improved safety and greater productivity.

PD-I laser range meter

- Laser precision for reliable results and accuracy ±1mm
- Makes measuring a one person task, helping you get the job done faster
- Can measure area and volume
- Can add, subtract and do Pythagoras
- Extremely simple to use

PM 40-MG multi-line green laser

- Vertical alignment of pipes
- Easy and fast aligning – rotating platform with improved fine adjustment
- All the lines you need – 4 vertical and a 360° horizontal lines, bottom plumbing point
- Green beam – 4 times more visible than red

PX 10 transpointer

- Position for a penetration
- Find drill bit start/exit point before drilling or coring through walls or floors
- Wall thickness measurement for easy selection of the required drill or core bit length

PS 50 multidetector

- Detect and avoid rebar, aluminium, copper, plastic, wood, live wire and pipes in a range of base materials
- Helps you drill right the first time – knowing where to drill helps avoid costly repairs
- Simple and easy to operate and interpret display

PS 1000 X-Scan

- Easy to use pulse radar detection tool
- Provides real-time internal view of concrete structure for on-site evaluation
- Locate rebar, tendons, metal and plastic conduits, glass fibre cables, voids in dry concrete structures in depths up to 300mm
- Avoid hitting concealed objects, find a safe spot to drill, core and saw

TE 4-A22 DRS cordless rotary hammer with dust extraction

- Repetitive drilling in all directions in concrete and masonry, recommended diameter range 5-12mm
- Safer work environment with dust-free drilling using the TE DRS 4-A

TE 6-A22 DRS cordless rotary hammer with dust extraction

- Drilling and hammer drilling in concrete and masonry, recommended diameter range 6-16mm
- Extremely powerful rotary hammer, designed for serial anchor hole drilling in concrete and chiseling
- Virtually dustless drilling when used with the DRS-6-A dust removal system

SIW 6AT-A22 with adaptive torque module

- High-efficiency brushless motor for long lifetime and more work per charge
- First impact wrench-based Adaptive Torque system on the market covering ETA and ICC-ESR approvals for stud anchor installations
- Mechatronic system to control fastening
- Compact design allows easy use in tight corners

SCM 22-A cordless metal cut circular saw

- Cutting openings in sheet metal in heating and air conditioning installation work
- Weighs just 4kg for best handling and ease of use
- Blade brake stops in 0.5 sec for maximum safety
- Cut channels and pipes quickly and cleanly with no sparks

CD 4-A22 caulking dispenser

- Versatile tool that can be used interchangeably with either 310 ml cartridges or 600 ml barrels
- Powerful tool for dispensing high-viscosity material with ease

TE 30-ATC-AVR combihammer

- Repetitive drilling in concrete and masonry, optimal range 10 – 20 mm
- Light chiselling on brick and block, corrective chiselling and concrete finishing
- Active Vibration Reduction (AVR) reduces vibration significantly making the tool less tiring to use
- Active Torque Control (ATC) for maximum safety thanks to automatic cut-out in critical situations

TE 50-AVR combihammer

- Lightest combihammer in the SDS max class
- Repetitive drilling in concrete, masonry and natural stone, optimal range 16 – 32 mm
- Light chiselling on masonry
- Active Vibration Reduction (AVR) reduces vibration significantly making the tool less tiring to use
- Detachable supply cord allows quick replacement

TE 60-ATC-AVR combihammer

- Repetitive drilling in concrete and masonry, optimal range 18 – 80 mm
- Detachable supply cord allows quick replacement
- Active Torque Control (ATC) for maximum safety thanks to automatic cut-out in critical situations
- Active Vibration Reduction (AVR) makes the tool less tiring to use and increases daily productivity

TE 700-AVR breaker

- Wall demolition in masonry and brick
- Highest impact energy in its class
- Maintenance-free brushless SR motor for longer service intervals and tool lifetime
- Active Vibration Reduction (AVR) makes the tool less tiring to use and increases daily productivity
- Dust suppression hood available for a virtually dustless environment

TE 1000-AVR breaker

- Demolition of concrete and masonry
- Unmatched performance thanks to exceptional impact energy and innovative Hilti Polygon chisel
- Maintenance-free brushless SR motor for longer service internals and tool lifetime
- Detachable supply cord for quick and easy exchange in case of damage
- Active Vibration Reduction (AVR) makes the tool less tiring to use and increases daily productivity

TE 2000-AVR breaker

- High performance floor breaker
- Maintenance-free brushless SR motor for longer service internals and tool lifetime
- Low weight and great balance for excellent handling in demanding applications
- Active Vibration Reduction (AVR) makes the tool less tiring to use and increases daily productivity

WORK FASTER AND LONGER

**Hilti Tool Inserts
for mechanical trades**

Hammer drill bits (SDS)

- SDS hammer drill bits designed with a full carbide head and bits
- Unique head and helix design to drill faster than any other drill
- For concrete, brick, masonry and more
- Connection ends available: TE-C, TE-Y

Hollow drill bits

TE-CX / TE-YX

**HD Setting tool and
stop hammer drill bit**

Percussion core bits

**Thin wall corebits for
aerated concrete/ brick**

TE-C / TE-Y

Chisels and setting tools

- Pointed and flat chisels with self-sharpening tips and inductive hardening
- Designed for superior performance and longer life
- For demolition and channel work
- Connection ends available: TE-C, TE-Y, TE-S, HEX 28

Flexible chisels

Pointed chisels

Wide-flat chisels

Clay spade chisel
Narrow flat chisels

Channel chisel

Bushing tool

Reciprocating saw blades

- Ideal performance and extra life in a wide range of metal and wood cutting applications
- Additional TPI, blade lengths and pack sizes available – see Hilti website for more information

MD – Heavy Metal (thick kerf)

MS – Metal (thin kerf)

WD – Wood and Metal

UD – Multiple Materials (thick kerf)

WDX – Ultimate Wood and Metal

Circular saw blades

- Fast speed, high precision and extra long life in metal and wood cutting applications
- Sizes available: 165mm, 190mm

Stainless and steel blade

Framing blade

Wood cutting

Non ferrous metal cutting

Jig saw blades

- High precision and fast speed
- For straight and contour cutting in wood, metal, stainless steel and other materials

Metal

Wood

Universal

Band saw blades for SB 4-A22

- Fast cutting metal band saw blades for low noise, low residue
- Cold cutting in steel pipe and tubing
- Available TPI: 10/14, 14/18, 24

Smooth shank bits

- A wide range of smooth and hex shank bits for multiple base materials
- Additional sizes and connection ends are available – see Hilti website for more information

HSS metal drill bits

Cutout bits

Stepper bits

Spade bits

Bimetal holesaws

Small abrasives

- For cutting, grinding and polishing and finishing work
- Sizes available: 115mm, 125mm, 180mm, 230mm

SP – Cutting

SPX – Cutting

SP – Flap disc

UP - Grinding

DD 150-U diamond coring system

- Tremendous versatility to core drill wet, dry, on the rig or hand-held, from an all-in-one system
- 3-speed mechanical gearing to match coring diameter for optimal performance
- Rig-based wet drilling for penetrations in concrete for pipes and cables

SPX, SP & P – unique diamond core bit portfolio

- X-change module technology lets you re-tip your core bits on site, saves time & weight, helps to get unstuck (SPX)
- Ultimate performance (speed, lifetime & constant performances) thanks to the Equidist technology (SPX & SP)
- Main diameters always available in Hilti Stores (P)

Line	Performance	Premium quality	Quick connect	Equidist diamonds	X-Change module	Performance class description
SPX	●●●●●	✓	✓	✓	✓	**Ultimate** performance delivers lowest total cost through labour savings
SP	●●●●○	✓	✓	✓		**Premium** solution delivers solid performance for demanding users
P	●●●○○	✓	✓			**Standard** product features lowest acquisition cost with Hilti quality

DD-WMS 100 unique water management system

- Keeps jobsites clean – all slurry is collected and the water is filtered for reuse
- Operates in 3 modes – recycling, vacuum cleaning and water supply
- Provides one full day of water autonomy (100L) for wet diamond coring applications
- Works with all diamond coring tools

DC-SE 20 – HSE slitting tool for chasing

- Ergonomic design to reduce tiring
- Dust-free and low vibration to allow a full day's work
- Fully enclosed discs for maximum safety
- Easy and precise cutting depth (max 40mm) and width (max 46mm) adjustment
- Works in all base materials

VC 40-UM dry/wet M-class vacuum cleaner

- Remove dust and slurry from drilling, slitting, grinding and wet/dry coring
- 1200W powerful motor
- Hilti Airboost filter technology for consistently high suction performance
- Automatic filter cleaning every 15 seconds
- M-class to comply with Australian construction's legislation

ANCHOR SOLUTIONS BUILT TO CODE

Hilti Anchor Systems

NCC COMPLIANCE

To ensure you comply with the National Construction Code (NCC), ask for the ETA documentation for the selected anchor.

STRONGEST ANCHORS

Our anchors provide the strongest solution for safety critical applications in concrete, fully backed by technical documentation, software and engineering services.

WIDEST RANGE

We offer a full suite of ETA assessed anchoring solutions, to suit every application from basic through to the most complex and challenging.

SAFESET
FAST, RELIABLE AND SAFE

- Auto-cleaning with Hilti hollow drill bit
- Dustless
- NCC compliant and ETA approvals for the following products:

Hollow drill bit   **HVU2**   **HST3**   **HSA**

RE 100   **RE 500 V3**   **HY 200**   **HY 170**

- Roughen diamond cored holes for better bonding
- Allows higher loads
- NCC compliant and ETA approved for RE 500 V3 and HY 200-R

Roughening tool   **RE 500 V3**   **HY 200**

THE APPROVED ADAPTIVE TORQUE SYSTEM
Torque bar   **HSA**   **HST3**

**HST3 setting with SIW-6AT impact wrench**

SCREW ANCHORS HUS3

Reliable and ETA approved for numerous permanent applications.

- Fast
- No torque wrench
- High loads like stud anchors
- Adjustable
- Cuts through rebar

ETA APPROVED FOR DIAMOND CORED HOLES

RE 500 V3

HY 200

*Seismic C1 & C2 approval for diameter 10mm & 14mm. Seismic C1 approval for diameter 8mm.
**Approvals for redundant fastenings available. Contact Hilti for advice. ***Seismic C2 approval for M8 & M10 HSC-A anchor only.

HIT-HY 200 ultimate hybrid mortar

- Fast cure hybrid mortar (60 mins @ 20°)
- C1 and C2 ETA seismic approvals
- Suitable for use in cracked and uncracked concrete
- Use SAFEset hollow drill bits for dustless, auto-cleaning hole drilling

HIT-HY 170 everyday hybrid mortar

- Suitable in cracked and uncracked concrete
- Can be used indoors and outdoors
- Suitable in masonry applications
- Fast curing time

HVU2 ultimate capsule technology

- Suitable in cracked and uncracked concrete
- Tapered design for overhead applications
- C1 and C2 ETA seismic approvals
- Can be loaded almost instantly (5 min)

HIT-HY 270 ultimate hybrid mortar (masonry)

- Strong and reliable fastening in a variety of masonry base materials
- Ideal in refurbishment and renovation applications
- Use with HIT-SC composite sleeve in hollow base materials

Manual and battery dispenser systems

- HDE 500-A22: Battery dispensing for effortless powered dispensing with minimal wastage
- Manual dispensing with minimal dripping and almost no wastage

HKD drop-in anchor (M10 x 30)

- Flared end for accurate flush setting
- Perfect for hanging pipe, cable and ventilation systems

HKD 'short' drop-in anchors

- Shallow depth (25mm) drilling for M6, M8, M10, M12, avoids rebar strikes
- Fast installation time with unique setting tool – 50% faster than using a hammer and punch
- Drill with rotary hammer, remove bit and set with piston

HUS3-H 6 screw anchor (hex head)

- Integrated washer
- Easily removable
- Productivity gain due to installation speed and effortless setting
- Used for channels and large scale repetitive fastenings

HUS3-I 6 screw anchor (internal thread)

- Less drilling and convenient overhead solution
- Significant time saving versus traditional anchor methods
- Great for various piping and ventilation applications

HUS3-P 6 screw anchor (pan head)

- Significant time saving on total installation time versus traditional methods
- Less drilling and convenient overhead installation
- Adjustable new channel system elements due to flat head configuration

HST3 expansion anchor

- Tolerates high loads and small edge distance with 3 embedment depths
- Fast hammering and reliable/convenient torqueing possible with the Hilti system solution
- Approved for seismic applications categories C1 and C2 (ETA)

DX 351 ME powder-actuated tool

- Fastening of threaded rod hangers, ceiling clips and other fasteners
- Fully automatic system
- Light and compact
- Versatile: specific fasteners available for each application

DX 351-CT fastening pole tool

- Fastening of threaded rod hangers and ceiling clips to concrete or composite deck for hanging mechanical services
- Specialised ceiling tool, do away with the need for ladders and simply install fixtures from a standing position

X-UCT P27

- Time-saving, reliable and versatile fastener for ducting and cable ties
- Pre-mounted with the high-performance Hilti X-P nail for optimised stick rate on concrete
- Friction-fit in the nose of a wide range of powder actuated nailers – preventing the clip from falling off the fastener guide
- Multiple tie points for versatility – items can be tied from more angles with just one holder

X-HS threaded hanger for concrete

- Quick fastening to steel and concrete
- Threaded rod can be pre-fitted
- Install suspended components e.g. ceiling frames or pipes
- Fastening installation channels on roof beams or ceilings

X-CC-U ceiling clip for concrete

- High performance ceiling clip
- Perfect for bracing
- Loads up to 20kg per fastening point
- Pre-drilling with DX-Kwik can achieve loads of 90kg

GX 3-ME gas system

- No battery – so no power source needed and no downtime due to charging
- Wide range of nails for fastening to a wide variety of materials
- Gas gauge helps to avoid running out of gas unexpectedly
- High fastening rate for high productivity and maximum efficiency

Gas can and nails system

- Gas nails for all base materials

X-P G3 MX: Suitable for hard concrete
X-S G3 MX: Suitable for steel
GC 42: Gas can, drives maximum 1200 fasteners

X-UCT multi-directional cable holder

- Tough polyamide material suitable for attaching PE-X pipe types
- Wide opening suitable for cable ties
- Friction fit in the nose of gas tools for easy handling

X-ECT cable tie fastener

- Fastening PE-X and other plastic pipe types
- Cost efficient method
- Friction fit in the nose of gas tools for easy handling
- Ideal universal holder of cable ties with a width of up to 9mm

X-EKSC pipe clip

- Simple and clean fastening solution for metric pipes, can be used singly or neatly clipped together
- Simple and fast attachment of lightweight PE-X and other plastic pipe types to walls and ceilings

BX 3-ME 02 battery powered fastening tool

- Fastening electrical clips to concrete, plastered masonry, filled block and steel
- Smart features through bluetooth connectivity and the Hilti Connect app
- Drives 800 nails on a single charge
- Uses 22 volt, 5.2 Ah battery, compatible with all Hilti 22 volt cordless tools

BX nail system

- X-P B3 MX: Ballistic point, collated nails for concrete
- X-S B3 MX: Ballistic point, hardened collated nails for steel
- X-P B3 P7: Ballistic point, single nails for concrete

X-PT B3 pole tool accessory for overhead fastening

- Safe overhead fastening without a ladder
- Cradle securely clamps the tool
- Extensions available to allow up to 7 foot reach

X-UCT multi-directional holder

- Tough polyamide material suitable for attaching PE-X pipe types
- Wide opening suitable for cable ties
- Friction fit in the nose of gas or battery-driven fastening tools for easy handling

X-EKSC closed clips for pipes

- Simple and clean fastening solution for metric PE-X and other plastic pipe types, can be used singly or neatly clipped together
- Friction fit in the nose of powder, battery or gas-driven fastening tools for easy handling

CODE COMPLIANT FIRE PROTECTION

Hilti Firestop Systems

NEW CFWC 100 floor waste collar

- Specifically tested for floor waste applications
- Tested with 100mm diameter uPVC sandwich core pipes
- Reliable 4 ways active spring design
- Optional recess plate provides 25mm recess under the collar to maximise vertical space in the floor below

CP 680N/S firestop collar

- One step cast-in installation for concrete slabs
- Seals pipes from 32mm to 160mm in dia.
- Suitable for PVC, PP, PP-R and HDPE pipes
- Easy to remove and replace pipes
- May be used as a floor waste collar with the addition of the Hilti CP 680 N-RAD

CFS-C P firestop collar

- Seals pipes from 40mm to 200mm in dia. penetrating through concrete, aerated concrete, prefabricated panels, masonry and plasterboard walls
- Suitable for sealing around acoustic pipes
- Allows for quick and easy installation without the use of tools

CP 611A firestop intumescent sealant

- High expansion firestop mastic for interior firestopping applications in concrete, aerated concrete, prefabricated panels, masonry and plasterboard walls
- Suitable for sealing around PE-X water and PE-X/Al/PE-X gas pipes
- Paintable
- Recommended dispenser: Hilti CD4-A22 with short assembly set

CP 606 flexible firestop sealant

- Water-based acrylic sealant for interior firestopping applications in concrete, aerated concrete, prefabricated panels, masonry and plasterboard walls
- For sealing around metal pipes up to 150mm dia.
- Paintable
- Impervious to smoke, gas and water
- Recommended dispenser: Hilti CD4-A22 with long assembly set

NOTES

PROFESSIONAL ASSISTANCE

Helps make every project a success

Hilti Engineering Services

HILTI SERVICE SUPPORT POLICY

The availability of professional technical support is just as important to Hilti as the production of quality tools. Our team of Field Engineers provide expert technical support, on site or by telephone. We know that every day on the job site brings a new challenge and that's why Hilti Engineers are on-hand to consult on a wide range of technical solutions.

PROJECT SUPPORT

Hilti project managers and engineers assist by coordinating logistics and technical support for defined projects.

ON-SITE TECHNICAL CONSULTING

Our engineers provide on-site support at any location. They offer a consulting service for engineers and construction professionals on specific application needs. Training and site-testing is also a service we can offer.

TECHNICAL SOFTWARE AND DOCUMENTS

Our innovative and practical software solutions cover everything from anchor design and selection, to installation concepts, and are available to support you in your daily work. Technical documents such as approvals, test certificates and technical data sheets can be viewed and downloaded from Hilti Online at **www.hilti.com.au/downloads**

CONTACT US

For any of these services you can contact us on **131 292** or **serviceaustralia@hilti.com**

WE'RE HERE TO HELP

How to get in touch

Contacting Hilti

CUSTOMER SERVICE

Customer Service representatives are available Monday to Friday from 7:30am to 5:00pm. Our professionally trained team can help you with product advice, orders and deliveries, as well as organising on-site product demonstrations.

Call: 131 292   Fax: 1300 135 042   Email: serviceaustralia@hilti.com

HILTI STORES

Our national network of Hilti Stores are much more than display or sales points for Hilti products. At a Hilti Store, you can receive professional advice on products and applications. You can also have hands-on demonstrations of Hilti products. Find a location near you.

Visit: www.hilti.com.au/stores

HILTI ONLINE

7 days a week, 24 hours a day, our website is available at your own convenience during and after office hours, with quick access to product information and pricing. Register to order online, review your order history, see your tool list and more. Get the Hilti Mobile app for Android or iOS.

Visit: www.hilti.com.au

ACCOUNT MANAGERS

Our professionally trained Account Managers are readily available nationwide, to visit your place of work, where and when you need. They can help evaluate your job requirements and suggest ways to increase your productivity and profitability.
